welcome

to Tanarata International Schools

Dear Parents,

I take this opportunity to warmly welcome you to look at **Tanarata International Schools – TiS** for your child's education. We thank you for considering entrusting Tanarata with the critical responsibility of your child's educational preparation and development. If enrolled, we do assure you that your child will receive a highly rewarding experience at TiS. We look forward to the opportunity to work with your child to develop and achieve his or her full potential and talents.

Please be advised that TiS admits students based on various relevant criteria and considerations, and does place limits on the class size for each teaching level. Students will be admitted based on these various criteria and considerations, usually including but not limited to placement test/s. It is strongly recommended enrollment applications be submitted early as there are limited seats available for many classes. Once your child's application is received and placement test/s held, an admission committee will review the application, and guide you on the appropriate placement for your child if admission is offered. As admission decisions are generally made 3 to 4 months before the start of the academic year in September, your child's application should preferably be submitted latest by end March (but not more than 12 months prior to intended admission).

To assist you with the enrollment process, we have included below a check list of forms and documents which are required for enrollment. This completed information will help us to make admission decisions and the best possible placement for your child. It is essential that you provide TiS with official documents for the previous two school years. For secondary school students, this must be an official transcript.

If at any time we can assist you with questions or further clarifications, please do not hesitate to call us or email us.

Yours sincerely,

The Registrar

Dear Parents,

A medical practitioner should fill out the following pages. When you visit your doctor please bring with you any relevant documentation. Your child must have a full health and physical examination either in your own country or in Malaysia within the first 30 days of entering TiS. If your child is required to have a health and physical examination by your workplace and is deemed fit and healthy for a posting in Malaysia, a photocopy of that documentation is acceptable.
